Mr Adrian Ward,
Universal Technical Training Services
PO Box 1268,
Elwood, VIC 3184

Dear Adrian,

EEOZ TRAINING, a Division of Oddzon Software, provides affordable and quality electronic training materials for students and RTOs to support the UEE07 Electrotechnology Training Package.
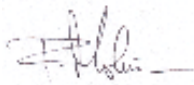

Our training resources have been developed by experienced and qualified trainers and software developers to provide assistance to Electrotechnology students and trainers to hone and develop skills necessary to gain competency in the electrotechnology industry.

We are currently working with the NIDA Corporation to develop additional lessons for the NIDA training equipment to support the UEE07 Training Package. I invite you to view our website on http://www.eeoztraining.com/ for the status of the Unit of Competencies currently being developed to inter-operate with the NIDA SCORM® compliant courseware.

If you have any further queries, please do not hesitate to contact me on 0419 814 397.

I look forward to working with you.

Yours sincerely.

Felino Molina
Managing Director
